Subject: Absolute Power Corrupts Absolutely

Our deist founding fathers were quick to realize any one company could have sway with the government and cautioned against such a thing from happening. Later this came to fruition and started the anti-monopoly policy into action to breakup such control and abusive powers. Today we face again such a giant. Wal-mart has been making moves to horde the market place and now as you know wants to force its ways from both ends in the form of banking. I ask that you please consider not allowing so much control by any one company again. We the people must always be on guard to protect against those who would become "The we say so corporation."

Atlee Yarrow, candidate for Governor of Florida 2006
